PROFILE

Aspiring software developer seeking entry-level opportunities to apply my web-development and problem-solving skills toward the success of a forward-looking organization.

EXPERIENCE

Fresher — Open to internships and entry-level roles in software development

PROJECTS

- **Online Blood Donor Registration Website**
(PHP, MySQL, HTML, CSS, JavaScript)
 - A platform for registering blood donors, tracking donation history and managing hospital records with secure login and session handling.
- **Restaurant Management System**
(PHP, MySQL, HTML, CSS, JavaScript)
 - An admin-driven system for processing orders, generating bills, and managing restaurant operations.
- **Pinterest Clone**
(React.js, Tailwind CSS, MongoDB, Node.js, Passport.js)
 - A Pinterest-style web app featuring user authentication, personalized feeds, profile pages, and post management.
- **Weather Application**
(HTML, CSS, JavaScript)
 - Fetches and displays live weather data from a public API in a responsive, minimalist UI.
- **Daily Task Manager**
(React.js, Bootstrap, Node.js, Express.js, MongoDB)
 - A productivity tool for managing daily tasks with full CRUD functionality and responsive design.

CERTIFICATIONS

Full Stack Java Development Program

Symbiosis Skills & Professional University (May-Sep 2024)

- Gained hands-on experience in developing full-stack web applications using Java, MySQL, HTML, CSS, JavaScript, and RESTful APIs.
